Importance: Normal
Subject: Update on Puget Sound Dissolved Oxygen Studies
Start Date/Time: Thur 6/20/2013 8:00:00 PM
End Date/Time: Thur 6/20/2013 10:00:00 PM

All -

Note the change in room: we're now in the bigger 2S-20 room in Lacey. For folks who will be calling in to the meeting, look for an e-mail from Mindy Roberts prior to 1 pm with the power point presentation. You'll want to have it available for the meeting.

- Andrew

All -

We have results from three important Puget Sound dissolved oxygen modeling studies. At this briefing on 6/20 from 1-3 pm, we'll share those technical results with EPA. Those studies - Budd Inlet TMDL, the South Puget Sound Dissolved Oxygen Study, and the larger-scale Puget Sound Dissolved Oxygen Model - have been years in the making.

This meeting will be heavy on graphics, so we'll send powerpoints to everyone before the meeting. You can join us in person in Lacey (2E-15) or via conference call
